

CLASS PROGRAMS

Each class operates on a daily schedule that provides a planned program of activities geared to the individual needs and development levels of the children served. These activities provide experiences that promote the individual child's physical, emotional, social, and intellectual growth and well-being. The daily program provides experiences in art, music, library, block building, science, dramatic play, and others. A fenced playground area provides year-round opportunities for the development of gross motor skills on age-appropriate equipment.

Equipment specially selected for a variety of activities is maintained indoors and outdoors. Children have opportunities for free choice of activities and playmates, as well as practice in self help procedures in respect to clothing, toilet habits, hand washing, feeding, and cleaning up. Children are supervised at all times and all supplies and equipment are maintained in top working condition.
